Multimedia Aspect

To ensure the stories are engaging and impactful, the following multimedia elements should be included:

- High-Resolution Photos: Include high-quality images that visually illustrate the success stories. These photos should be high resolution and relevant.

- Short Videos: Use concise videos (2-3 minutes) to showcase the impact and innovation of the projects.

List of Relevant Publications "Publications Reel"

- Publications: Provide relevant publications that offer detailed insights into the projects. These can include reports, case studies, and articles that support the stories with data and evidence.
